## RECYCLING 101 TO SORT WELL...

We must answer YES to these 2 following questions:

### QUESTION #1

Is this object made of paper, cardboard, plastic, glass or metal?

### QUESTION #2

Is this object printed matter, wrapping or a container?

NO: SO, WE **DON'T PUT IT IN THE BIN.**

YES: THEN **PUT IT IN THE BIN. BUT BEWARE...**

### NOT EVERYTHING IS BLACK OR WHITE

IDENTIFY THE CODES IN THE MÖBIUS LOOP (3 ARROWS FORMING A TRIANGLE):

1, 2, 3, 4, 5 OR 7. **PLEASE NOTE:**

**ALL PLASTIC #6 ITEMS ARE NOT RECYCLABLE!**

### PLASTIC WRAPPING: WHAT YOU NEED TO KNOW

Only plastic wrapping that "stretches" when you try to tear it should go in the bin. For example, plastic bags from sliced bread, plastic wrap from the dry cleaners, or grocery bags, go in the bin. It's even better if you bundle them together in a bag of bags!

Plastic wrapping that doesn't "stretch" when you try to tear it must not be put in the bin. For example, bags of frozen fruit, cereal, rice or other foods must not be put in your recycling bin.

### WHAT CAN BE PUT IN MY BIN

PAPER AND CARDBOARD	METAL	PLASTIC	GLASS
Newspapers, circulars and magazines	Aluminum foil and aluminum containers	Caps and lids (separate from their container)	Bottles and containers from food (any colour)
Leaves, envelopes and paper bags	Aluminum bottles and cans	All containers, bottles, and wrapping identified with a 3-arrow loop and marked 1, 2, 3, 4, 5, 7	
Books and telephone directories	Tin cans	Bags and plastic wrap that stretch when you try to tear them	
Egg crates	Caps and lids		
Tetra Pak type juice or milk cartons	Returnable (money-back) cans		

### WHAT'S IMPORTANT

IS TO STOP AND ASK YOURSELF THE RIGHT QUESTIONS, TO SORT WELL AT HOME.

### THE LITTLE REBELS THAT DON'T GO IN MY BIN

#### NON-STRETCHY WRAPPERS

e.g.: moulded and vacuum-packed, for cereal (granola) bars, bags of chips, frozen fruit, cereals, rice, pouches and self-standing bags

#### PLASTIC AND STYROFOAM (DISPLAYING MÖBIUS LOOP CODE #6)

e.g.: some small yogurt containers, Styrofoam coffee cups and plates, plastic utensils

#### LONG AND STRINGY ITEMS

e.g.: electrical extension cords, strings of lights, clotheslines

#### TEXTILES AND HOUSEHOLD WASTE

e.g.: shoes, soiled diapers, table scraps, bags of leaves, facial tissues, cotton swabs

#### HHW (HOUSEHOLD HAZARDOUS WASTE) AND CONSTRUCTION MATERIALS

e.g.: tires, propane tanks, batteries, nails, etc.
